4. What is your primary investment objective in relation to this investment?

☐ **Capital Growth** – You seek to invest in a product designed or expected to generate capital return over the investment timeframe. You prefer exposure to growth assets (such as shares or property) or otherwise seek an investment return above the current inflation rate.

☐ **Capital Preservation** – You seek to invest in a product designed or expected to have low volatility and minimise capital loss. You prefer exposure to defensive assets that are generally lower in risk and less volatile than growth investments (this may include cash or fixed income securities).

☐ **Income Distribution** – You seek to invest in a product designed or expected to distribute regular and/or tax-effective income. You prefer exposure to income-generating assets (this may include high dividend-yielding equities, fixed income securities and money market instruments).

5. Are you seeking a source of supplemental income in addition to the above objective?

☐ **Solution/ Standalone (up to 100%)** – You may hold the investment as up to 100% of your total investable assets. You are likely to seek a product with very high portfolio diversification. A very high portfolio diversification provides exposure to a large number of holdings across a broad range of asset classes, sectors and geographic markets with limited correlation to each other.

☐ **Major allocation(up to 75%)** – You may hold the investment as up to 75% of your total investable assets. You are likely to seek a product with at least high portfolio diversification. ☐ **Minor allocation (up to 25%)** – You may hold the investment as up to 25% of your total investable assets. You are likely to seek a product with at least low portfolio diversification. A low portfolio diversification provides exposure to a small number of holdings (for example, fewer than 25 securities) or a narrow asset class, sector or geographic market.

☐ **Satellite allocation (up to 10%)** – You may hold the investment as up to 10% of your total investable assets. You may seek a product with very low portfolio diversification. A very low portfolio diversification provides exposure to a single asset (for example, a commercial property) or a niche asset class (for example, minor commodities, crypto-assets or collectibles). Products classified as extremely high risk are likely to meet this category only..

8. TAX DECLARATION (FATCA AND CRS)

IMPORTANT: Failure to complete this section will result in your application being rejected.

The certification is being used to comply with the U.S. Foreign Account Tax Compliance Act (FATCA) and OECD Common Reporting Standards (CRS).

Australia is a participant in the Automatic Exchange of Information (AEOI) regime concerning the automatic exchange of financial account information with foreign jurisdictions. The regime aims to address tax evasion at a global level. The relevant laws are the Foreign Account Tax Compliance Act (FATCA) in the case of exchange by Australia with the United States of America (U.S.) and the Common Reporting Standard (Standard) in the case of exchange by Australia with other countries that have implemented the Standard. The Standard commenced operation in Australia on 1 July 2017.

The Foreign Account Tax Compliance Act (FATCA) relates to US taxpayers and the Common Reporting Standard (CRS) is a broader framework for the exchange of financial account information between jurisdictions relating to all non-Australian taxpayers.

To comply with FATCA and CRS, as a financial institution, we must collect information about your tax status before opening your account. In some cases, this information will need to be reported to the Australian Taxation Office who may then pass this information to tax authorities in other jurisdictions. Please note that if you do not complete this section, we may not be able to process your application.

Further information about this regime is available at the website URL shown below:
https://www.ato.gov.au/General/International-tax-agreements/In-detail/International-arrangements/Automatic-exchange-of-information---CRS-and-FATCA/

As a result of Australia's participation in the regime applicants must certify their country of tax residency. Where required the information will be reported to the Australian Taxation Office (ATO) which will report to various global tax authorities.

If you are unable to complete this form, please seek appropriate advice relating to the tax information required.
